# ABTRON

## ABTRON

ABTRON is one of Ontario's premier IT service, consultancy and support providers. We improve organisations' operations, large and small, through our selected services, delivering security, mobility and productivity. We pride ourselves on offering unrivalled levels of both expertise and service.

## Management and Fulfillment Professionals

ABTRON is a partner that gives you access to a veteran team of management and fulfillment professionals who go far beyond simply meeting core fulfillment needs. A team that proactively provides innovative solutions and helps you pursue new opportunities. A company that's large enough to give you economies of scale and true operational efficiencies.

## Service and Maintenance

ABTRON is into old-fashioned service. The kind of service where you can really trust the people who pick up the phone or answer your email. ABTRON employees are bonded by the Metropolitan Toronto Police Department. They'll be a source of ideas you can turn into advantage...without creating additional cost.

## Security, Documentation and Auditing

ABTRON can integrate into your current technique, method, process, or activity. The idea is that with proper processes, checks, and testing, a desired outcome can be delivered with fewer problems and unforeseen complications.

## Computer Removal and Hard Drive Destruction

ABTRON realizes industry analysts estimate that 80 percent of corporate laptop and desktop PCs contain sensitive data. The percentage of enterprise servers with sensitive data is even higher. A figure from Seagate and we have the tools and record to manage this growing problem for you.

## Contracts have been awarded by:

- EDS Systemhouse
- Metropolitan Toronto Police Dept
- The Ministry of Legislature
- Inergi
- Hydro One
